

Z3

Past meets present when Racing Dynamics enhances a BMW Z3. With styling reminiscent of the legendary BMW 507, the Z3's lines are given a contemporary flair when dressed with Racing Dynamics aerodynamic components and road wheels.

Front spoiler with optional DTM style lips, rear apron, and trunk mounted wing frame the latest evolution of the Racing Dynamics road wheel—the RGS.

The Racing Dynamic line of performance accessories for Z3 models also includes spring kits, sway bar kits, strut braces, exhaust systems, brake kits, and interior additions. Providing innovative technical and stylistic alternatives to enhance your driving experience is the source of our greatest satisfaction.
